Magnetostrictive level transmitter
High-resolution measurement principle, compact design
Model FLM-CA

for further approvals
see page 2

Applications

- High-accuracy level detection for liquid media

Special features

- Compact and space-saving design
- Output signal 4 ... 20 mA (NAMUR NE43) or HART® ver. 6
- Operating limits:
  - Operating temperature: T = -40 ... +250 °C
  - Operating pressure: P = Vacuum to 40 bar
  - Limit density: $\rho \geq 580$ kg/m³
- Explosion-protected version (option)
- Vibration resistant version (option)

Description

The model FLM-CA magnetostrictive level transmitter is used for the high-accuracy, continuous level detection of liquids and is based on determining the position of a magnetic float according to the magnetostrictive measurement principle.

The FLM-CA emits a 4 … 20 mA output signal, which is configured via buttons within the probe head. Optionally, the FLM-CA is also available with HART® protocol as a digital output signal. Probe lengths of 100 mm to 3 m and also various temperature and pressure ranges are possible.

In comparison to the FLM-S, the FLM-CA is particularly notable for its very compact and space-saving design. In addition, it can be used in applications with vibrations up to 4 g.

Specifications

Magnetostrictive level transmitter, model FLM-CA	
Guide tube	■ Ø 6 mm (max. 1,000 mm) ■ Ø 12 mm (max. 3,000 mm)
Process connection	Mounting thread downwards ■ G 1/2" ... G 2" ■ NPT 1/2" ... NPT 2" Mounting flange ■ ANSI 1/2" ... 2 1/2", class 150 ... 600 ■ EN DN 20 ... DN 65, PN 6 ... PN 100 ■ DIN DN 20 ... DN 65, PN 6 ... PN 100 Other process connections on request
Materials	
Wetted parts	Stainless steel 1.4571 (316Ti)
Connection head	Stainless steel 1.4305 (303)
Insertion length	
Guide tube Ø 6 mm	100 ... 1,000 mm
Guide tube Ø 12 mm	100 … 3,000 mm
Measurement accuracy	±1.25 mm
Resolution	0.1 mm
Electrical connection	Connection terminals max. 1.5 mm²
Supply voltage	DC 8 ... 30 V
Output signal	■ 4 ... 20 mA (NAMUR NE43) ■ HART® ver. 6

Magnetostrictive level transmitter, model FLM-CA	
Vibration resistant version (option)	to 4 g (only for guide tube Ø 12 mm)
Operating pressure	Depending on the float, max. 40 bar
Operating temperature	
Guide tube Ø 6 mm	-40 ... +125 °C
Guide tube Ø 12 mm	-40 ... +250 °C
Ambient temperature	-40 ... +85 °C
Ingress protection per EN 60529	IP68
Configuration	
Version without HART® protocol	Via two built-in buttons in the connection housings
Version with HART® protocol	Via two built-in buttons, HART® communicator or HART® interface in the connection housings
